Desk: (802) 828-0316

## Notice to Employee

Do you have to file? Refer to the Form 1040 Instructions to determine if you are required to file a tax return. Even if you do not have to file a tax return, you may be eligible for a refund if box 2 shows an amount or if you are eligible for any credit.

Earned income credit (EIC). You may be able to take the EIC for 2015 if your adjusted gross income (AGI) is less than a certain amount. The amount of the credit is based on income and family size. Workers without children could qualify for a smaller credit. You and any qualifying children must have valid social security numbers (SSNs). You cannot take the EIC if your investment income is more that the specified amount for 2015 or if income is earned for services provided while you were an inmate at a penal institution. For 2015 income limits and more information, visit www.irs.gov/eitc. Also see Pub. 596, Earned Income Credit. Any EIC that is more than your tax liability is refunded to you, but only if you file a tax return.

Clergy and religious workers. If you are not subject to social security and Medicare taxes, see Pub. 517, Social Security and Other Information for Members of the Clergy and Religious Workers.

Corrections. If your name, SSN, or address is incorrect, correct Copies B, C, and 2 and ask your employer to correct your employment record. Be sure to ask the employer to file Form W-2c, Corrected Wage and Tax Statement, with the Social Security Administration (SSA)

to correct any name, SSN, or money amount error reported to the SSA on Form W-2. Be sure to get your copies of Form W-2c from your employer for all corrections made so you may file them with your tax return. If your name and SSN are correct but are not the same as shown on your social security card, you should ask for a new card that displays your correct name at any SSA office or by calling 1-800-772-1213. You also may visit the SSA at www.socialsecurity.gov.

cost of employer-sponsored health coverage (if such cost is provided by the employer). The reporting in box 12, using code DD, of the cost of employer-sponsored health coverage is for your information only. The amount reported with code DD is not taxable.

Credit for excess taxes. If you had more than one employer in 2015 and more than \$7,347 In social security and/or Tier 1 railroad retirement (RRTA) taxes were withheld, you may be able to claim a credit for the excess against your federal income tax. If you had more than one railroad employer and more than \$4,321.80 in Tier 2 RRTA tax was withheld, you also may be able to claim a credit. See your Form 1040 or Form 1040A instructions and Pub. 505, Tax Withholding and Estimated Tax. (Also see *Instructions for Employee* on the back of Copy C.)

[Back of W-2]

# Form W-2 Reporting of Employer-Sponsored Health Coverage

The Affordable Care Act requires employers to report the cost of coverage under an employersponsored group health plan. Reporting the cost of health care coverage on the Form W-2 does not mean that the coverage is taxable. The value of the employer's excludable contribution to health coverage continues to be excludable from an employee's income, and it is not taxable. This reporting is for informational purposes only and will provide employees useful and comparable consumer information on the cost of their health care coverage.

Employers that provide "applicable employer-sponsored coverage" under a group health plan are subject to the reporting requirement. This includes businesses, tax-exempt organizations, and federal, state and local government entities (except with respect to plans maintained primarily for members of the military and their families). However, federally recognized Indian tribal governments are not subject to this requirement.

#### Transition Relief

For certain employers, types of coverage and situations, there is transition relief from the requirement to report the value of coverage beginning with the 2012 Forms W-2. This transition relief applies to the 2013 Forms W-2 and will continue to apply to future calendar years until the IRS publishes additional guidance. (Note: employers generally are required to provide employees with the 2013 Forms W-2 in January 2014.) Any guidance that expands the reporting requirements will apply only to calendar years that start at least six months after the guidance is issued. See the "Optional Reporting" column in the below chart for the employers, types of coverage, and situations eligible for the transition relief.

### Reporting on the Form W-2

The value of the health care coverage will be reported in Box 12 of the <u>Form W-2</u>, with Code DD to identify the amount. There is no reporting on the Form W-3 of the total of these amounts for all the employer's employees.

In general, the amount reported should include both the portion paid by the employer and the portion paid by the employee. See the chart, below, and the <u>questions and answers</u> for more information.

An employer is not required to issue a Form W-2 solely to report the value of the health care coverage for retirees or other employees or former employees to whom the employer would not otherwise provide a Form W-2.

The chart below illustrates the types of coverage that employers must report on the Form W-2. Certain items are listed as "optional" based on transition relief provided by <a href="Notice 2012-9">Notice 2012-9</a> (restating and clarifying <a href="Notice 2011-28">Notice 2011-28</a>). Future guidance may revise reporting requirements but will not be applicable until the tax year beginning at least six months after the date of issuance of such quidance.

The chart reviews the reporting requirements for Box 12, Code DD, and has no impact on requirements to report these items elsewhere. For example, while contributions to Health Savings Arrangements (HSA) are not to be reported in Box 12, Code DD, certain HSA contributions are reported in Box 12, Code W (see <a href="General Instructions for Forms W-2">General Instructions for Forms W-2</a> and W-3).
